

# OPTi-LOGIC

PRECISION OPTICS

Available in Lost Camo™ exclusively from your Mathews dealer.

## ▶ MICRO™ I

Designed specifically for bowhunters, ranging less than 125 yards, this small and simple unit is fully loaded with huge attributes. Low light conditions are no match for the Micro™ I. The internal LED Red Dot Aiming system is brilliantly displayed through fully coated, zero-magnification optics that offer monstrous eye relief. A single CR2 battery powers the adaptable Micro I while three easily selected ranging modes are available with simple one-touch operation: Yardage, Meters and Ballistics Compensation with VAC™.
